

1. Dr. H. P. Patil

1. Porous slider bearing with couple stress fluid, *Acta Mechanica* (Springer Verlag), 85(1&2) (1990), 99-113.
2. An analysis of squeeze film action in porous layered bearings, *Wear* (Elsevier), 145(2) (1991), 385–397.
3. The Influence of Couple Stresses on the Dynamic Properties of a Double Layered Porous Slider Bearing, *Journal of Applied Mathematics and Mechanics*, 72(12) (1992), 685–689.
4. Analysis of porous step bearings, *Journal of Mathematical and Physical Sciences*, 25 (1991).
5. The effect of variable permeability and rotation on the performance characteristics of porous bearings, *Wear* (Elsevier), 155(1) (1992), 7–14.
6. The effects of variable permeability and roughness of porous bearings, *International Journal of Mechanical Sciences* (Elsevier), 34(5) (1992), 355–362.
7. Numerical Solution of the MHD Reynolds Equation for Squeeze-Film Lubrication between Porous and Rough Rectangular Plates, *ISRN Tribology*, Volume 2013 (2013), Article ID 724307, 10 pages.
8. Numerical Solution of squeeze- film Lubrication between Porous and Rough Rectangular Plates, *Journal of Porous Media*, 16(3) (2013), 183-192.
